PROFESSIONAL SUMMARY

Ambitious Computer Science engineering student proficient in C++, Python, Machine Learning fundamentals, and AI prompt engineering. Experienced with Database Management Systems (DBMS) and computer networking, eager to contribute technical problem-solving skills to innovative engineering teams.

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: C++, Python

Machine Learning & Data: Machine Learning (ML), AI Tools & Prompt Engineering, Database Management Systems (DBMS)

Developer Tools & Cloud: Git & GitHub, VS Code, Computer Networks (CN)

Soft Skills: Problem Solving

EXPERIENCE & INTERNSHIPS

Student Developer — Web Development & Technical Projects (ITM Skills University) **(2024 - Present | Kalyan, Maharashtra)**

• Built interactive frontend web applications and solved algorithmic problems in C++ and JavaScript. Collaborated on academic projects adhering to clean code standards and version control via Git & GitHub.

Hackathon Competitor & Project Lead — Competitive Hackathons (Odoo SPIT & Summer Hackathons) **(2024 - 2024 | Mumbai, Maharashtra)**

• Collaborated in high-pressure technical sprints to conceptualize, design, and deploy full-stack web solutions, achieving Winner status at Summer Hackathon and Top 5 Finalist rank at Odoo SPIT Hackathon.

KEY PROJECTS

Summer Hackathon Winning Web Solution [Code] | ***React.js, Node.js, JavaScript, HTML5, CSS3, Git***

• Engineered a rapid-response web application that secured 1st Place Winner at the Summer Hackathon. Implemented dynamic client interfaces, reliable state handling, and modular component hierarchy within a competitive 36-hour sprint.

Odoo SPIT Hackathon Enterprise Web Portal [Code] | ***JavaScript, React.js, DBMS, Node.js, CSS3***

• Developed a collaborative workflow management dashboard that finished among the Top 5 Finalists at the Odoo SPIT Hackathon. Integrated relational database schemas with responsive client-side views.

AI Prompt Engineering & ML Query Assistant [Code] | ***Python, Prompt Engineering, Machine Learning, DBMS, VS Code***

• Engineered an intelligent assistant leveraging AI prompt engineering workflows and machine learning concepts to structure and categorize user requirements with structured output validation.

EDUCATION

BTech in Computer Science and Engineering (CSE) — ITM Skills University **(2025 - 2029 | GPA: Undergraduate)**

Relevant Coursework: Programming in C++, Web Development, Data Structures & Algorithms (DSA), Computer Networks (CN), Machine Learning (ML), AI Tools & Prompt Engineering, Database Management Systems (DBMS).

CERTIFICATIONS & CREDENTIALS

• **AI Tools & Prompt Engineering Specialization** — Professional Technical Certification (2024) (ID: AI-PROMPT-2024) [Verify]

• **Object-Oriented Programming & DSA in C++** — ITM Skills University (2024) (ID: ITM-CPP-DSA-2024) [Verify]

HONORS & ACHIEVEMENTS

- **Summer Hackathon - Winner** — Summer Hackathon Committee (2024): Clinched 1st place among collegiate engineering teams for developing an innovative web-based software application under competitive time constraints.
- **Odoo SPIT Hackathon - Finalist (Top 5)** — Sardar Patel Institute of Technology (SPIT) & Odoo (2024): Ranked among the Top 5 Finalists in a highly competitive inter-college hackathon building enterprise web solutions.
- **Intra College Hackathon - Finalist (Top 10)** — ITM Skills University (2024): Selected among the Top 10 finalists for demonstrating excellence in modern frontend development and algorithmic problem solving.

PUBLICATIONS & RESEARCH

- "Modern Frontend Architectures and AI Prompt Engineering in Student Workflows", *Collegiate Tech Research Forum*, 2024. [Link]

LANGUAGES & ACTIVITIES

Languages: English (Professional Working Proficiency), Hindi (Native or Bilingual Proficiency), Marathi (Fluent)

- **Student Designer & Developer**, Creative Computing Forum (2024 - Present) — Exploring user experience principles, modern layout aesthetics, and the intersection of fashion technology with interactive web applications.
